

RAIN DIAL EDITION

THE MOST USER FRIENDLY CONTROLLER UNDER THE SUN.

NOW FEATURING **REMOTE ACCESS**

We took the Irritrol® Rain Dial® controller you already trust and found ways to make it even better. With greater convenience as our objective, the updated controller allows for easier and faster programming. And that's just the start. Hassle-free maintenance, greater pump control and new innovations to comply with growing water restrictions make this controller incredibly functional. Rain Dial is clearly a workhorse—it delivers as it always has and now boasts a dozen new features to provide superior performance professionals have come to expect from Irritrol.

Irritrol®
Get more done™

12 MORE REASONS TO LEAVE THE JOB WITH CONFIDENCE.

Irritrol® Rain Dials have been an industry standard for more than 20 years. They're easy to install, easy to use and easy to understand. On top of that, they're dependable and have a proven reliability that keeps them working year after year. Best of all, the improved Rain Dial programs just like it used to with added features to help you "get more done".

REMOTE ACCESS

With productivity in mind, we've made the improved Rain Dial remote-ready for Irritrol's Contractor Maintenance Remote system (CMR-KIT). The CMR-KIT (sold separately) is designed as a one-person, remote maintenance and troubleshooting tool. It utilizes the connector port on the back of the new Rain Dial's face panel and provides long range, remote access to the controller from up to 1.5 miles away. Save time and money with Irritrol's new Rain Dial and CMR-KIT.

USE ONLY THE FEATURES YOU NEED

The updated Rain Dial allows you to pick and choose only the features that make sense for you and your customer. Use only what you need for your desired application! Whether you decide to use some or all of the new features, programming is so simple, even the new guy on your crew—or your newest customer—can handle it.

See the insert for information on programming the 12 new features.
